Education

Bachelor's Degree Computer Engineering 09/2019 – 09/2024
Arab Academy for Science, Technology & Maritime Transport AAST
Graduation Project : Design and Implementation an ERP system (A+).

Professional Experience

Power bi Reporting , SME&SOHO , Orange Egypt 06/2025

Designed and maintained **ETL pipelines** and cleaned, transformed large datasets from multiple sources to support business decision-making. Automated recurring data processes using **Power Query**, reducing manual work. Developed interactive dashboards and reports in **Power BI / Excel** to visualize KPIs and track business performance. Make the Model and Relationships between Queries .Ensured data accuracy and integrity by applying **quality checks, validation rules, and reconciliation processes**.

Ai & Data Science , Amit Learning 06/2026

Explain and simplify complex topics as Python & SQL , Data Analysis , Mathematics , Machine Learning , Deep Learning , NLP ,LLM, MLops & Deployment

Ai & Data science Instructor , Dolab Academy 12/2025

Python & SQL , Data Analysis , Mathematics , Machine Learning , Deep Learning , NLP ,LLM, MLops & Deployment

Data Analyst Instructor , Dolab Academy 01/2026

- Delivered training in data analysis fundamentals using **Python, SQL, Excel, and Power BI**.
- Taught data cleaning, exploratory data analysis (EDA), and basic statistical concepts.
- Guided students through hands-on exercises and real-world datasets.
- Supported learners in developing analytical thinking and data-driven insight

Data Analysis Instructor , Amit Learning 06/2025 – 12/2025

data cleaning, analysis, visualization, and building predictive models. Skilled in Python, SQL, Excel, and Power BI, with strong knowledge of statistics and machine learning fundamentals. Able to transform raw data into meaningful insights that support business decisions. Proven ability to work with large datasets, automate workflows, and communicate findings clearly.

Youtube & Udemy Instructor

covered Topics as : Data Analysis , Data Science ,Mathematics , Machine Learning , Deep Learning , NLP ,LLM, MLops & Deployment , Machine learning in Power bi

Odoo and Python developer, OdooTec 03/2025 – 05/2025

Designed and deployed backend logic for business applications using Python and PostgreSQL. Integrated APIs for inventory, HR, and financial modules.

Data Analysis Internship , Efe 11/2024 – 01/2025

Data Analysis , Efe Worked on analyzing datasets to extract meaningful insights and support data-driven decisions. Tools  like Excel and Power BI for data cleaning, visualization, and reporting.

Android Development Internship, Orange 09/2024 – 10/2024

Android Development Internship, Developed and maintained Android applications using Kotlin within a collaborative team environment. Gained hands-on experience with Android Studio, UI/UX design principles, and API integration.

Machine Learning Internship , Aitb 06/2023 – 09/2023

Completed a hands-on Machine Learning internship focused on building and evaluating models using Python, Scikit-learn, and Pandas. Worked on data preprocessing, feature engineering, and model optimization. Gained exposure to real-world projects and best practices in model validation and deployment.

AI Applications in Healthcare Internship, Children's Cancer Hospital 57357 02/2023 – 04/2023

Explored the use of AI technologies to support healthcare solutions in pediatric oncology. Worked on data preprocessing and model training using Python and machine learning libraries

Certificates

- Data Science , EpsilonAi
- Data Analysis , Amit
- T-SQL quiers using SQL server, Mahara-tech
- Data Analysis , Data-X
- Intro to software engineering , MEC
- Achieved Mastering OpenAI APIs: Building End-to-End Systems On UdemY
- Achieved Deployment of Machine Learning Models On UdemY
- Achieved AI Mastering Course (Machine & Deep Learning) On UdemY
- Achieved End-to-End Data Science Project On UdemY
- Achieved Tableau Analytics On UdemY
- NLP Track , NeuroTech
- Data Science & Ai , MachinFy
- Data Analysis, E-Youth Academy
- AI and its applications , Zewail City
- Achieved Comprehensive Guide to Learning MLOps Tools On UdemY
- Achieved Deep Learning for Natural Language Processing On UdemY
- Achieved LLM Engineering, RAG, & AI Agents Masterclass [2026] On UdemY
- Achieved Complete RAG System: From LLM Retrieval to AWS Deployment On UdemY
- Achieved Deep Learning MiniCamp On UdemY

Skills

- | | | | |
|----------------------|------------------------------|--------------------|----------------------|
| • C/C++ | • Python | • Power bi | • SQL |
| • Data Visualization | • Mathematics and Statistics | • Machine Learning | • Data Preparapation |
| • NLP | • LLM | • Neural Network | • RAG |
| • Gen AI | • Deep Learning | • ETL | • DAX |

Interests

- | | | | |
|-----------------|----------------|----------------------|-------------------|
| • Data Analysis | • Data Science | • Python Development | • Problem Solving |
| • Deep Learning | • LLM | • Machine Learning | • Power bi |

Languages

- | | | |
|----------|-----------|----------|
| • Arabic | • English | • German |
|----------|-----------|----------|
